

# Chroma Technical Specification

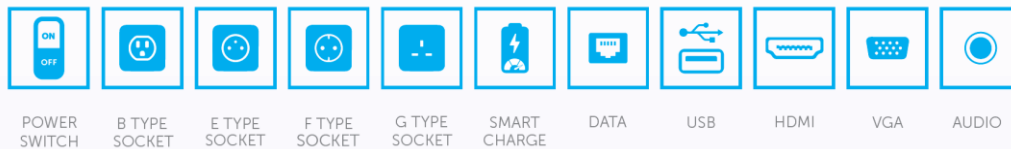

## Product description

Chroma power offers power when you need it via its selection of smart charge power socket ports. Chroma is supplied with data & media connections allowing the end user to connect various devices quickly & efficiently. Excellent clamping fixtures and smart charge points makes this a practical and stylish addition to your desktop! Chroma is available in white and black and allows the end user to mount the module onto their desk as a top and bottom fix option. Spare fuse supplied in every socket.
